On Thursday, April 25, 2019, a comprehensive business alliance agreement was concluded between cryptomall ou which operates "cryptomall", a social contribution-type, cryptocurrency-dedicated shopping mall and FCoinJP, Ltd., which is the operator of the Japanese version of the world's 2nd largest cryptocurrency exchange!

Aim of the alliance

cryptomall ou is operating “cryptomall” shopping mall dedicated to cryptocurrencies that sells only "genuine" products to eradicate "fake" and imitated products". In addition, “cryptomall” handles over 1 million products which is the largest assortment among the crypto currency dedicated shopping malls.

"FCoinJ" (Fcoin Japan)" is a platform for the Japanese community of "FCoin (Fcoin)", which ranks the second in the cryptocurrency transaction volume ranking (trade volume per day: 271.0 billion yen).

The collaboration between “cryptomall” with its strength in the product line up of only genuine items, and “FCoinJP” with a unique system unfound in other cryptocurrency exchanges will create significant synergy effects and provide further values to the users of services of both companies. With this belief the two companies agreed to the collaboration agreement of this time.

Future outlook

Through this partnership, we will work to make effective use of the assets owned by both companies and aim to realize the effects of the business partnership as soon as possible.

Advantages of FcoinJP

(1) Financial-Market-Level Trading System

FCoinJP has a fast and stable matching engine that supports complex trading orders such as GTT (Good Till Time) , GTC (Good 'Til Canceled), FOK (Fill or Kill), and IOC (Immediate or Cancel). It can handle 2 million transactions per second.

(2) Open and Transparent

DLT technology will allow users to access the trading data within the FCoinJP exchange. This will bring a new level of transparency to the space. There have been multiple accusations & conspiracy theories that current exchanges fake volume and engage in insider trading. DLT tech will help validate or debunk these claims.

(3) Community Management

Community-based Autonomous Organization is the reason why FCoinJP has so much hype. FCoinJP has a flat management structure, with no CEO/Board of directors. It will be “the first autonomous community-based trading platform in the world relying on blockchain technology and the concept of ‘Token Economics’”. The white paper alluded that ‘token economics’ means the following:

Managed by a highly replaceable Community Committee

Every citizen on the ecosystem will be paid in dividends

FJ holders will be part of operational decisions via smart contracts

FJ holders can participate on the committee election.

80% of FCoinJP revenue will be distributed back to the holders on a daily basis.
