

[Tokyo Big Sight] The first in Japan's history!

"cryptomall" will be exhibited at the

**"1st Blockchain EXPO [Spring]", a special exhibition of
blockchain technology held for three days from April 1st to 3rd!**

2020/02/18

1. Exhibit at "1st Blockchain EXPO [Spring]"

cryptomall ou, which operates a shopping mall "cryptomall" dedicated to "social contribution" crypto assets (virtual currency), will be held for three days from April 1 (Wed) to April 3 (Fri), 2020 We exhibited at the “ 1st Blockchain EXPO [Spring]” .

cryptomall ou

- Shopping mall business where only genuine products are sold
- A mining business that makes use of the benefits of Estonia
- A cryptocurrency (virtual currency) exchange business that enables all businesses to function organically

These are the three businesses.

In this exhibition, we will demonstrate how the "cryptomall", which claims to have the most products in the shopping mall industry of encrypted assets (virtual currency), will demonstrate how to build a shopping platform that "does not sell fake goods, fake goods cannot be sold" in the shopping mall industry of encrypted assets (virtual currency), focusing on BtoB's blockchain technology.

You can see the fusion of blockchain technology and microchip.

We will also introduce the “mining business,” which was launched as a new business in January 2020. Let me explain why we can guarantee high profitability.

Please drop in at the "cryptomall" booth.

2. About the 1st Blockchain EXPO [Spring]

(1) What is "1st Blockchain EXPO [Spring]"?

First held! Specialized exhibition specializing in blockchain!

This exhibition will be held for the first time in 2020 as a blockchain specialty exhibition that has recently attracted attention in various industries such as retail distribution, energy, and healthcare.

From the latest research to applications, all blockchain technologies are exhibited in one place. It is a great place to get business negotiations, technical consultations and business partners with people in all fields, such as communication IT, manufacturing and financial institutions.

(2) Overview of the 1st Blockchain EXPO [Spring]

◆ Name

1st Blockchain EXPO [Spring]

◆ Schedule

April 1 (Wed)-3 (Fri) 2020

◆ Location

Tokyo Big Sight (South Exhibition Building)

◆ Organizer

Reed Exhibitions Japan Co., Ltd.

◆ Support

◆Blockchain Promotion Association

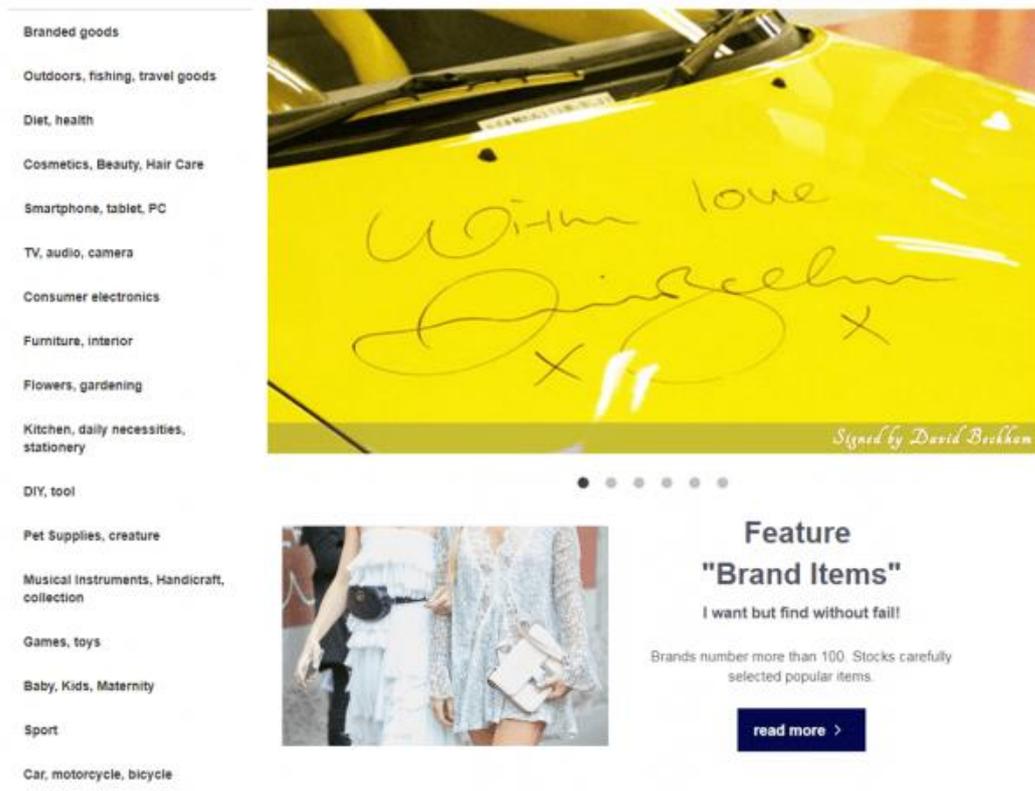

Japan Blockchain Association

3. About "cryptomall", the social contribution-type, cryptocurrency-dedicated shopping mall

(1) crypt "cryptomall" company profile

"cryptomall" is engaged in the following three businesses.

① Shopping mall business where only real goods are sold

"cryptomall" is a shopping mall dedicated to "social contribution" cryptocurrencies (virtual currency) that handles more than 1 million items. Utilizing blockchain technology, we are constructing a shopping mall platform that does not sell or sell fake goods.

② Mining business that takes advantage of the land in Estonia

"cryptomall mining" is a business that performs crypto asset (virtual currency) mining such as "Bitcoin (BTC)". In particular, we practice mining with emphasis on fundamental metals such as "half-life" as appropriate so that income and capital gains with high profitability can be easily obtained.

In addition, "cryptomall mining" is the world's first system that sells heat generated by mining to electric power companies, and has been successfully installed.

In addition, cryptomall ou, who is well-versed in the cryptocurrency and blockchain industries, has developed a highly profitable and unique mining business by utilizing the know-how cultivated over many years, the climate of the Republic of Estonia, and other regional characteristics.

③ cryptographic asset (virtual currency) exchange business to make all businesses work organically

"cryptomall exchange" is the only cryptocurrency exchange that can be converted to Euro.

At the exchange, it is possible to trade crypto assets (cryptocurrency) issued by “cryptomall” such as “cryptomall token (XMALL)” and “cryptomall stable token (SMALL)” at low cost.

Furthermore, various benefits such as mining rewards can be obtained by owning "cryptomall Token (XMALL)".

(2) What is the mechanism to eradicate “fake products”?

- **#1 Transparency**

Anyone can view the transaction record by registering the transaction record of the product on the blockchain. Unlike a centralized system where there is an administrator, third parties who have no interests can view the history, so it is highly transparent and data cannot be tampered with.

- **#2 Tracking possibility**

All transaction records for products on the blockchain are connected. In other words, it is obvious that the product was shipped from a manufacturer and arrived at the user via a retail store.

- **#3 Fiber type microchip**

Fiber-type microchips that do not interfere with design are incorporated into products during manufacturing. By reading the microchip, you can view the history on the blockchain that cannot be tampered with, such as product information, product transaction history, and logistics routes.

In this way, by using blockchain technology and microchips, anyone can view the transaction history of products that can never be tampered with, and “fake products” cannot be sold and will not be sold at all” Shopping mall platform can be built.
